Special Reports/Projects

Guide on digitally-mediated assemblies and how to monitor them (2022). As a consultant for the European Center for Not-for-Profit Law, I drafted a guide and set of methodologies to collect data about digitally-mediated assemblies in order to provide greater understanding of how they take place and the extent to which they are enabled, facilitated, and protected by governmental and private actors.

All the news that's fit to be identified: Facilitating access to high-quality news through internet companies, platforms (2021). I coauthored (with Sonja R. West and Lefteris Jason Anastasopoulos) a white paper for the Knight Foundation exploring the public interest in high-quality news available through Internet companies like Twitter and Facebook. This was part of a \$25,000 grant from Knight.

Research Evaluation of the City of Columbus' Response to the 2020 Summer Protests (2021). I served as a member of the advisory team for the after-action review (AAR) of the response of the City of Columbus (OH) to the 2020 protests following the murder of George Floyd. I provided a First Amendment perspective for the data-gathering process and for the report co-drafted by the team leaders: former U.S. Attorney Carter Stewart and Dean Trevor Brown of the John Glenn College of Public Affairs at Ohio State University.

Guidelines on Freedom of Peaceful Assembly (3rd edition, 2019). As a consultant for the Organization for Security and Co-operation in Europe and the Office for Democratic Institutions and Human Rights, I drafted the media-rights section of the guidelines, later adopted by the Council of Europe.

Putin, Politics, and the Press, COLUMBIA JOURNALISM REVIEW (2017). I prepared a 14K-word report published by CJR and presented at Columbia University about news coverage of hacked emails during the 2016 presidential election, focusing on legal/ethical propriety of reporting on the emails as stolen materials.

Letters and Memoranda

Signed and consulted on a joint letter in 2024, with other First Amendment scholars, sent to the Department of Justice to attest that the Espionage Act charges against Julian Assange pose a major threat to the First Amendment.

Submitted written guidance in 2020 to the U.N. Human Rights Committee to inform its drafting of General Comment No. 37 on Article 21 of the International Covenant on Civil and Political Rights. I discussed how Article 21, which guarantees the right of peaceful assembly, might be interpreted to protect virtual assemblies.

Signed and consulted on a joint letter in 2020, with other First Amendment scholars, sent to the California Highway Patrol to object to its ban on all protests on state property during the covid-19 pandemic.
