## PROJECTS AND PROGRAMS

Created, developed and tested curriculum, and earned college and university approval for an undergraduate Sports Media Certificate Program at UGA. The program, launched in Fall 2014, was the first of its kind in the Southeastern Conference. At six courses (18 credit hours), it is the most in-depth yet broad-based undergraduate sports media program in the country. Students learn best practices across broadcast, print and digital platforms and acquire multimedia skills for careers in sports journalism and sports communications. They learn in real-world settings at high school, college and professional sports events. Their class work consistently is published by professional media outlets, including *The Atlanta Journal-Constitution* and the *Athens Banner-Herald*. Students in the program study and discuss a variety of issues, topics and trends related to sports, including social media, race, gender, politics, analytics, culture, health and medicine, and economic issues such as collective bargaining, college sports finances and stadium financing. (2013-present)

Applied for and received a \$10,000 grant, as well as a \$10,000 Phase II grant, from the UGA President's Office to launch the UGA-Grady High School Sports Broadcast Program. The program provides equipment and trains students in underrepresented and/or underserved communities across Georgia to produce live broadcasts of their school's sports events. UGA faculty and students guide the high school students and their advisers through learning technical and on-air skills, from production and graphics

to play-by-play and sideline reporting. The program aims to help UGA build a more diverse student population by connecting Georgia high school students with college and career opportunities in sports broadcast. (2018-present)

## **INSTITUTIONAL SERVICE**

Negotiated partnership with The Associated Press to provide UGA College of Journalism and Mass Communication students in sports media and visual journalism the opportunity to cover the 2023 Women's World Cup in Australia. Arranged student tryouts in fall 2022, as 18 students were selected from more than 50 applicants. Overseeing travel and logistics planning for the event in July 2023. (2022-present)

Negotiated partnership with The Associated Press to provide UGA College of Journalism and Mass Communication students in sports media and visual journalism the opportunity to cover the 2020/2021 Summer Paralympic Games in Tokyo and the 2020/2021 U.S. Paralympic trials. Secured funding to cover all travel costs for 13 students and three professors. Because of pandemic-related complications, the project's focus shifted to the 2022 Winter Paralympic Games in Beijing then was suspended entirely. (2018-2022)

Launched and continue to oversee the Sports Media @ UGA Bureau, an opportunity for students to gain real-world experience in sports media. The bureau creates vital links between Sports Media @ UGA and media outlets and other institutions in the community. Students produce live-stream broadcasts of area high school sports events using the Atlanta-based PlayOn! Sports platform. PlayOn! donated a two-camera production kit to the program in 2014 and has enlisted our students to produce broadcasts of state high school football playoff games every year since. Bureau participants partner with Morgan County High School in Madison, Ga., on live broadcasts of the school's spring sports events and with Cedar Shoals High School in Athens, Ga., on football broadcasts. Students also work with the bureau's founding partner, the *Athens Banner-Herald*, to produce local sports stories. Sports Media @ UGA students have had hundreds of stories published in the *Banner-Herald* since 2013, including 1A and Sports front stories. (2012-present)
